Dear Ms. Homer:

**NOVA Gas Transmission Ltd. (NGTL)  
2017 NGTL System Expansion Project (Project)  
Certificate GC-126 and Order XG-N081-013-2016  
Update on Temporary Infrastructure – Pelican Lake Section**

On 3 February 2017, NGTL filed an update with the Board regarding the temporary infrastructure for the Pelican Lake Section of the Project. More specifically, NGTL indicated it would be building a temporary construction camp on a previously cleared site, which is currently being used at the Pelican Lake Section for equipment staging (laydown yard) ([A69317](#)). This laydown yard was included in the temporary infrastructure for the Project, and was considered in the Board's regulatory review and environmental assessment for the Project. The Board determined the Project is in the Canadian public interest and issued Order XG-N081-013-2016 pursuant to section 58 of the *National Energy Board* in relation to temporary infrastructure required for the Project.

The Board has considered the update and approves the changes to the temporary infrastructure.

The Board reminds NGTL of its commitment to continue to engage with potentially affected Aboriginal groups throughout the lifecycle of the Project. The Board directs NGTL to serve this letter, along with the Project update dated 3 February 2017, on all potentially affected Aboriginal groups.

If you have any questions or comments regarding this letter, please contact Heather Dodds at 403-909-4610 or [heather.dodds@neb-one.gc.ca](mailto:heather.dodds@neb-one.gc.ca).

Yours truly,

*Original signed by*
