Attention: Sheri Young,
Secretary of the Board

Dear Sirs and Mesdames:

**Trans Mountain Pipeline ULC ("TMPL") Apportionment Procedures
Application Dated October 15, 2013**

We are counsel to Chevron Canada Limited ("Chevron") in connection with the above referenced proceeding. We have reviewed correspondence filed by Stikeman Elliott on behalf of Phillips 66 ("P66") and Bull Housser & Tupper on behalf of Tesoro Canada Supply & Distribution Ltd. ("Tesoro") relating to the proposed process to be employed by the Board to consider both TMPL's filing identifying the issues that it suggests need to be resolved in connection with the allocation processes administered under its tariff and for an interim order relating to verification procedures.

The alacrity with which both P66 and Tesoro addressed the Board suggests that TMPL's filing raises significant issues and Chevron accordingly requests that the Board receive submissions from all interested parties wishing to participate before determining the process that would be appropriate to deal with them. To that end, we respectfully request that the Board establish a deadline for submissions on whether or not there should be an oral or written process in connection with the allocation issues and on the means by which the Board should determine whether any interim order is required in the meantime. Chevron will have submissions to make on both points whenever the Board indicates it would like to hear them.

Yours very truly,

LAWSON LUNDELL LLP

Chris W. Sanderson, Q.C.*
