Method of attendance

Please familiarize yourself with Section C of [Procedural Direction No. 19](#) regarding videos and photos being taken at the hearing, which may affect your choice below.

Please check only one:

- ☒ I will provide oral summary argument in person.
- ☐ I will provide oral summary argument by telephone.

Preferred and alternative time slots

A. General

The Panel is committed to hearing from all intervenors that wish to provide oral summary argument. In order to create a schedule that allows this to occur, the Board must understand when you are available to speak. Please indicate as many time slots as possible.

- Put a “1” in boxes that represent your *preferred time slots*.
- Put a “2” in boxes that represent *alternative time slots* that would work for you.
- Put an “x” in boxes that represent time slots where you are not available.

The Board will hear from intervenors at two locations. In identifying your preferences, please note that intervenors’ time limits can be influenced by the number of individuals/groups wanting to speak at a given location. The Board anticipates that many intervenors will prefer to speak in Burnaby during the available two-week period, which could have the effect of reducing time limits. **Therefore, the Board encourages those intervenors that have the means to consider providing oral summary argument during the Calgary dates, either in person or by telephone.** While the Board will carefully consider all date/location preferences received, it may not be able to accommodate each of them.

Between 18 and 29 January 2016 in Burnaby, British Columbia			
Day of the week	Morning	Afternoon	Evening
Mondays	1	x	x
Tuesdays	1	1	2
Wednesdays	1	1	2
Thursdays	1	1	2
Fridays	1	1	x
Saturdays*	x	x	x

*subject to venue availability

Between 1 and 12 February 2016 in Calgary, Alberta		
Day of the week	Morning	Afternoon
Mondays	x	x
Tuesdays	x	x
Wednesdays	x	x
Thursdays	x	x
Fridays	x	x

B. Exceptions

Despite your general preferences in Section A of this form, there may be specific dates between 18 and 29 January and 1 and 12 February 2016 that you cannot attend. Please list those dates here:

1.	4.	7.
2.	5.	8.
3.	6.	9.
Other dates:		

Other information

Please provide any other information that you feel the Board should consider when setting up the logistics and schedule for oral summary argument.

I write as the representative for the City of New Westminster with respect to the attendance limitations at the Oral Argument outlined in Procedural Direction No. 19, i.e., a limit of two representatives from an organization to be in attendance at any time during the hearing.

In order to have the appropriate expertise available to present materials and respond to questions from the Panel, we request the attendance of the following four City representatives during the City's allotted time:

- Mr. Mark Allison, who oversaw the preparation of the City's documents and evidence;
- Dr. Heather Bears, Zoetica Environmental Consulting Services, an Environmental Impact Assessment and Wildlife Specialist who has assisted the City with the preparation of evidence related to potential ecological impacts of the pipeline alignment near the City;
- Chief Tim Armstrong, New Westminster Fire and Rescue Services, who provided input on risk assessment and emergency preparedness for the City's written evidence; and
- Mr. Elmer Rudolph, Sapperton Fish and Game Club, who has overseen restoration work within the Brunette River watershed over the past two decades and who has provided valuable information to the City team on fish species and the health of the aquatic habitat.

These four speakers would be registered for the List of Participants and we understand that, outside of the City's allotted time period, no more than two City representatives would attend to limit potential distractions and to provide a fair, efficient, and safe opportunity for all participants that will be providing oral summary argument in front of the Panel members.
