**Subject:** Its way past time to say no

---

Dear National Energy Board Members,  
I am opposed to you granting the Enbridge Northern Gateway Project's sunset clause extension request. They have had more than enough time but have not made a case that convinces either the communities they wish to pass through or their potential customers.

The Enbridge pipeline never was a good idea. We know we have to get off fossil fuels, not promote them further, as the 'Three Amigos' have just clearly indicated and as Canada has in effect committed to through signing the climate change agreement in Paris last fall. Moreover, in his mandate letter to the Ministers of Transportation, Fisheries & Oceans and the Canadian Coast Guard, the Prime Minister has requested they implement a legislated oil tanker ban on B.C.'s north coast - so that puts a stop to it anyway.

So just say no and stop this ridiculous proposal.

Yours truly

Sincerely,

Trevor Hancock
