Sheri Young
Secretary of the Board
National Energy Board
517 Tenth Avenue SW
Calgary AB T2R 0A8

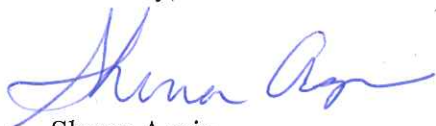

Dear Ms. Young,

**Re: Westcoast Energy Inc.
Application for Review and Variance
NEB Decision on Tolling Methodology for Tower Lake Section GH-003-2015
File OF-Fac-Gas-N081-2015-16 03**

With regards to the matter stated above, it is Tourmaline's position that Westcoast has failed to raise a doubt "as to the correctness of the Board's decision with respect to the toll treatment of the Tower Lake Section such that a review is warranted."¹ There is no indication in Westcoast's application that the circumstances have changed, nor is there any indication that the Board was missing crucial facts when it rendered its original decision. As such, under Rule 44(1), the only remaining reason that the Board could review its decision is if there was an error of law or of jurisdiction. Westcoast's Grounds for Review (set out in paragraph 12 of its Application) are merely outlining its disagreement with the outcome of the decision, rather than pointing to any particular error in law. The Grounds for Review set out by Westcoast lack substance and fall short of meeting the requirement for review. Tourmaline therefore submits that the Application should be dismissed.

Should you have any questions regarding this submission please contact Sarah Birch at (403) 515-2895 or birch@tourmalineoil.com.

Sincerely,

Sherra Aspin
Manager, Natural Gas Marketing
